

UI developer with 5 years of experience, primarily focusing on technical aspects while also enhancing my research skills. Over the years, I have developed a diverse range of projects including web and application wireframes, a decision tree for a health insurance claim tool for Jindal HX, an e-mail template platform for Aduvo, and user personas for America Airways. Currently, I am working on the Aqua and HX tools. If there is any way I can contribute to your projects, please feel free to reach out.

Work History
